

CALL TO ACTION

volume 4 issue 6

CHECKLIST

MAKE A LIST OF ITEMS

it would take to set up a physical or electronic early warning system around your perimeter and collect the materials to put a system in place. (v4i6 – Page 58)

PERIMETER PROTECTION

CHALLENGE

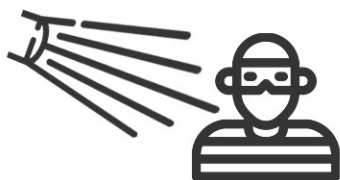

IDENTIFY THE MATERIALS

needed to establish area denial and channeling that fits your perimeter and begin collecting those items. (v4i6 – Page 25 and 63)

Identify your **LAYERS OF PERIMETER** and draw a detailed sketch that indicates the blind spots or dead zones that an intruder could use as cover to approach your home. (v4i6 – Page 49)

Identify the openings in your structure and make a list of **TACTICAL LANDSCAPING** options to fortify those openings. (v4i6 – Page 29)

Identify the dark areas of your property at night and devise a way to use various **LIGHTING OPTIONS** to illuminate them and steal the cover of darkness from intruders. (v4i6 – Page 10)

Create a 4-D security plan for your **HOME OR RETREAT** and get to work improving your position. (v4i6 – Page 55)

SURVIVAL DISPATCH INSIDER
